

Scott Gross

(310) 980-1421 | scottgross.works | [@scottgross.works](https://twitter.com/scottgross.works)

Highly motivated, creative technology professional with over 20 years in independent business development, media production, branding, content creation and marketing. Longtime Warner Bros. / DC Comics writer and artist. Experience in serverless application design, app development, generative AI workflows and cloud-based solutions. Seeking to leverage extensive experience in a dynamic role in business software development, sales engineering or consulting.

Experience Highlights:

- **The Leedz (2024):** Developed a marketplace on AWS for service vendors to trade booking information and better monetize their calendars.
theleedz.com
- **LeedzAi (2024):** A Google-Gemini powered AI marketing agent that creates X posts about the Leedz incorporating trending topics to maximize exposure.
github.com/scottgrossworks/theLeedz_on_X
- **Tag Cloud Search (2023):** A custom CMS for multifaceted projects. Allows users to tag their content with searchable bricks which then can be added to a modular, drop-in search UI.
github.com/scottgrossworks/TagCloudSearch
- **Cathair Apocalypse (2017):** Independent comic and Android sticker app, sold retail in over 200 stores nationwide and exhibited at 17 trade shows.
